

WHAT CAN YOUR BAR ASSOCIATION DO FOR YOU?

The Wilkes Barre Law & Library Association is here to serve you.

Over these last few weeks we have seen emergency Orders from Pennsylvania Supreme, Superior and Luzerne County Court of Common Pleas; revisions to Courthouse access, and County services; and the extension of the Continuing Legal Education deadline. The Bar Association has emailed them to you and posted each on the website (www.luzernecountybar.com). Additionally, we have had emergency Executive Committee meetings to revise, cancel and postpone the Bar Association activities to keep everyone safe.

Our thanks to President Judge Vough for his continuing communications, as well as that of Luzerne County Manager David Pedri. Pennsylvania Bar Association President Elect David Schwager has also been extremely helpful in obtaining critical information. All notices have been added to The Legal Register. If you know of other members who indicate they are not receiving this critical information, please provide his or her email address to me.

We are committed to disseminate all information both by email and posting on the website. While we are all working remotely, I am proud to say we have all been working to help our members in every way. Please email me what else you would like to see the Bar Association do to help you. The long history of this Bar Association makes clear that through two World Wars, the Depression, floods, and 9/11, the attorneys in this County have pulled together to help and support each other and our community at large.

Stay well!
